Attachment to PTO/SB/51 (12-97) Reissue Application Declaration by the Inventor

At least one error upon which reissue is based is described as follows:

During the prosecution of the application that issued as the above patent, the inventors did not recognize that the features disclosed in the patent in Figs. 1 and 13A were appropriate to claim. As such, the inventor's did not claim all that they had a right to claim. This error was made without deceptive intent. Specifically, the inventors did not claim any one or more of the features of an information recording layer formed between a first substrate and a second substrate, the information recording layer has a track of a spiral shape, a data recording area and a barcode pattern are formed on the track, and the data recording area and barcode pattern are readable by light radiation.

I hereby claim foreign priority benefits under 35 U.S.C. §119(a)-(d) or § 365(b) of any foreign application(s) for patent or inventor's certificate, or § 365(a) of any PCT international application which designated at least one country other than the United States, listed below and have also identified below, any foreign application for patent or inventor's certificate, or PCT International application having a filing data before that of the application on which the priority date is claimed:
